If you, your spouse, or anyone residing at the above residence owes the Town of Middletown any past due/delinquent bills, you must pay all of these bills IN FULL before any service will be provided at the above service address. Additionally, if after this service is provided, it is found that such past due / delinquent bills do exist, current service will be disconnected until payment is made in full.

I understand that bills are due monthly. A 6 percent (%) late fee will be assessed seven (7) days after the due date on the bill. Failure to receive bills shall not prevent such bills from becoming delinquent nor relieve the customer of his/her obligation. If service is disconnected due to non-payment, a \$25 disconnection fee and a \$25 reconnection fee will be assessed, and to restore service, the customer must bring current all charges.

A payment made with a bad check will be considered non-payment, and will be subject to immediate disconnection without notice. If service is disconnected due to a returned check, a \$50 fee will be assessed and the customer must pay the returned check amount, plus the \$50 fee, by cash, debit, credit card or money order to restore service. Disconnect and reconnect fees will also apply. Two returned checks within a 12-month period will result in the account becoming cash-only for one (1) year.

The customer is responsible for payment of all utility charges at this address until a service termination request form is received, no less than 24 hours before moving and a final meter reading has been made by the Town of Middletown.

Once a service termination request form is received, the deposit will be credited to the final bill. A bill will be issued for the difference if the final charges are more than the deposit. If the final bill is less than the deposit, a refund check will be issued for the difference and mailed to the forwarding address provided by the customer.

I give permission to the Town of Middletown to take the actions needed to locate me if I leave a bill unpaid.
